I'm from Venezuela, 29 years old, Front End developer with a Degree in Informatics Education. I speak Spanish and English. I develop innovative and accessible web applications. I have expertise in UI/UX design, design thinking and copywriting. I also design user interfaces and interactive prototypes with high-quality strategic texts. Likewise, I am passionate about Database management, from the creation of the database structure diagram, tables and functions to stored procedures.

WORK EXPERIENCE

Front - End Developer Freelance

04/2020 – Present

Achievements/Tasks

- I am working remotely as independent in different projects of web designing and development.
